# When It Rains, It Pours

During two recent storms in Wise, a great deal of damage was done to building structures at Kelly. Lightning struck the chimney, which had to be completely rebricked. Bricks barely missed the newly installed satellite dish for Channel One broadcasts.

After the walls of the new field house were partially completed, big winds swept through the campus and the walls "came tumbling down."

Jessica,

Well, looks like this year is finally over. But in a way its kind of sad.

But hey we have got the summer to look forward to. You dont realize how lucky I have been to have you as a best friend. I really hope you stay as pretty and sweet as you have been this year. Never change. And always remember the good times we have had this year. And I will never ever forget our friendship it will always be in my heart and mind. Even as long as I live. And I hope in the future we can still be good friend or even best friends. I really hope so. And I will always be here if you ever need anything. Never change and always remember
